

The Herrington Report

August 7-10

Class Wikispace Webpage

<http://armstrong-herrington.wikispaces.com>

The classroom website has tons of resources available to both students and parents. Throughout the year, I will update the classroom website with any and all things pertaining to what is taking place in science class. If a student misses class, they can catch up easily by accessing this site at home or by coming to my room during homeroom. I have listed some of the things available on the website in the section below.

I will also send out weekly or bi-weekly emails with new updates and important information.

Email Address: bherrington@starkville.k12.ms.us

School Phone: 662-324-4070

Feel free to contact me.

Welcome to 8th Grade Science

This year I know you can be successful, have tons of fun and learn the tools that will help you reach some of your academic and personal goals. I have very high expectations for you all and hope you have the same “reach for the stars” expectations for yourselves. We will explore science through technology, investigations and real experiences.

Important Things to Access on the Classroom Webpage

- ♦ Check the classroom calendar
- ♦ Access word walls with vocabulary and key terms
- ♦ Stay up to date with test dates and assignment due dates
- ♦ Practice science concepts with games and interactive websites
- ♦ Access current and archived newsletters
- ♦ Access study guides
- ♦ Access classwork documents, PowerPoints and assignments missed
- ♦ Watch tutorial videos for concepts that caused confusion or need refreshing
- ♦ See pictures of projects, labs and student participation
- ♦ Turn in homework online
- ♦ Participate in Webquests
- ♦ Study for tests with flashcards
- ♦ Access any unit we are covering and get instant information to be successful with projects and assignments
- ♦ Participate in online discussions
- ♦ Find out homework assignments
